Note: The above scope of accreditation is based on the statistical nomenclature for economic activities NACE rev. 2 and recommended by EUAS ID 1. The scope of accreditation represents broad classifications granted by EUAS on the basis of the management system certification processes demonstrated by the certification body Institute Accreditation is based on the competence and ability to effectively apply the requirements of the relevant certification courses listed in the Institute's scope of accreditation. EUAS accreditation entails review of the Institute's own management system, on-site assessment of the Institute's certification processes, review of Institute's access to expertise including onsite observation of the CB when conducting certification audits at client sites. Under the conditions of accreditation, the Institute is obligated to use equivalent certification practices covering the specific scopes as listed for all clients and as demonstrated during the accreditation process. Accreditation does not cover certification in areas outside the scope of this accreditation certificate. Accreditation does not imply endorsement of the products or the design or performance characteristics of products certified by the Institute.
